(54) SHAMPOO COMPOSITION

(57)Abstract:

PURPOSE: To obtain a shampoo composition that gives voluminous feeling to fine, soft hair and improves capability of the hair to retain a hair style.

CONSTITUTION: This shampoo composition contains (a) surfactants selected from anionic, nonionic and ampholytic surfactants and their mixtures, (b) an aqueous emulsion of high-viscosity silicone dissolved in a volatile solvent, and (c) an anionic conditioning polymer which is an anionic derivative of guayule rubber, in the condition that the average particle size of the high-viscosity silicone in this composition is less than 2 μ m in diameter.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
